# Registration

The workshop will be held in **Zoom**.

### Please use the following link for online registration:

https://eu01web.zoom.us/meeting/register/u5cuce6trD8qG9L8YxtIaE2kUQxJPGHcf6jH

During registration, please choose one out of the four different Q&A sessions that you would like to attend. You will have the opportunity to pose questions or describe challenges that arise out of your research projects for further discussion with your peers and session chair.

### Participation is free.

## **DZG** workshop

for young scientists

21 October 2021, online

# Invitation to young scientists

The six German Centers for Health Research (DZG) organise joint events for young scientists. We aim to provide training tailored to specific needs and to facilitate scientific exchange and networking across the DZG research areas.

The workshop "Epigenetic Techniques" focuses on methods and techniques that are broadly applied across disease areas to unravel epigenetic mechansims. After the talks, participants will be given the opportunity to meet the speakers for further discussion of their own specific research challenges within the four different Q&A sessions.

## **Speakers**

Dr. Raffaele Teperino: Head of the Group Environmental Epigenetics, Helmholtz Center Munich, German Research Center for Environmental Health, Institute of Experimental Genetics, DZD

Prof. Marc Timmers: Professor of Medical Epigenetics, Department of Urology, Medical Center - University of Freiburg, German Cancer Consortium (DKTK) partner site Freiburg and German Cancer Research Center (DKFZ) Heidelberg

Prof. Reinhard H. Dammann: Univ. Professor for Genetics, Institute for Genetics, Justus-Liebig University Giessen, DZL

Prof. André Fischer: Head of the Group Epigenetics and Systems Medicine in Neurodegenerative Diseases, Department for Psychiatry and Psychotherapy, University Medical Center Göttingen, Speaker of the DZNE site Göttingen

## **Programme**

Thursday, 21 October 2021

**Zoom meeting** 

Talks

Chair: Johannes Backs (DZHK, Heidelberg)	
15:00	Welcome and Introduction
15:05 – 15:30	In-vitro techniques to elucidate inheritance mechanisms of epigenetic patterns, Raffaele Teperino (DZD, Munich)
15:30 – 15:55	Methods to analyse the regulation of transcription complexes and chromatin accessibility mechanisms, Marc Timmers (DKTK, Freiburg)
15:55	Break
16:00 – 16:25	Analysis of aberrant epigenetic regulation of disease associated genes by DNA methylation assay, Reinhard H. Dammann (DZL, Giessen)
16:25 - 16:50	Tools to examine histone modifications in epigenetic regulation of gene

Break 16:50

**Q&A Sessions –** Meet the Speakers

17:00 - 17:30Four parallel moderated sessions
