

DDEA Summer School on Diabetes, Metabolism and Endocrinology for PhD Students

26-29 August 2024

Sinatur Hotel Gl. Avernæs, Ebberup, Denmark

Join us at the DDEA Summer School on Diabetes, Metabolism and Endocrinology! The Summer School brings together ambitious PhD students in Denmark and from abroad for a high-level, scientific course that both deepens and widens your knowledge in diabetes, metabolism and endocrinology. The Summer School is a great opportunity to establish and expand your network with peers and experts.

SCIENTIFIC SESSIONS

- The insulin-resistant brain
- The alpha-cell – liver axis
- Vascular and lymphatic dysfunction
- Endocrine disruptors
- The role of steroids in health and disease
- Heterogeneity of endocrine diseases

KEYNOTE SPEAKER

Professor Philipp Scherer
University of Texas Southwestern Medical Center (US)

WORKSHOPS

- Sex differences and other confounders in study design
- Single-cell data repositories
- Health innovation and entrepreneurship
- Novel tools in diagnostics, clinical interventions, and drug development
- In-hospital diabetes management
- Researcher wellness and identity
